6351 Centennial Drive \$249,900

3 Bedroom, 2.5 Bath Spacious Colonial with Curb Appeal!

Enjoy this corner lot, with mature landscaping, large yard, and brick patio including fish ponds with waterfall. An inviting foyer leads to a spacious living room with bay window, hardwood floors and French doors that lead to a covered screened porch. The hardwood floors continue into the dining room where there is chair rail and crown moldings surrounding the perimeter. The updated eat-in kitchen has new stainless steel appliances, new countertops, and an enlarged granite sink. Off the kitchen is a laundry room with wall cabinets, washer/dryer hook-up, and powder room. The family room is especially inviting with a wood-burning fireplace and custom built-in cabinetry as well as French doors that lead to the brick patio and backyard. The study off the family room is perfect for a home office. The second floor includes a master bedroom suite with bath and closet. Upstairs also features two additional bedrooms and bath. A new heat pump compliments the two-zone heating and air system. Mature trees on the property were recently attended by a professional arborist, and one of the oaks is a descendent of the famous "Wye Oak." A newer architectural shingled roof and paved driveway finish off the exterior.
